LAMBIC

"It is the use of wild yeasts that gives such a winery aroma and palate (sometimes reminiscent of Chardonnay, often to fino sherry, or even dry vermouth) to the category of wheat beers known as lambic or lambiek.

Some of these yeasts are airborne, and local to the region of production, the valley of the small river Zenne (spelled with an initial "S" in French), which runs through Brussels, Belgium" *BEER COMPANION Michael Jackson*

GOLDEN ALE, BELGIAN ALE, DOPPLEBOCK, ABBEY & TRAPPIST

"In the Middle Ages, water supplies were poor, and everyone knew that drinking water might sicken or even kill you. Beer, having been boiled and then fermented, was perfectly safe and a staple food for many Europeans"
